International Conference
on
Redefining Global Growth and Competitiveness (IRGCC 2027) Navigating Technological Disruption, Economic Transformation, Geopolitical Realignment and Sustainability

Saturday, 13th February 2027

About IITM

The Institute aims to develop as a Centre of Excellence for imparting technical education and generating competent professionals with a high degree of credibility, integrity and ethical standards. The Institute is passionate about grooming leaders who are not only thorough professionals, but also good human beings with values and "sanskars". Education is a life-long process, but it must develop from firm and broad foundation. The goal of the Institute is to inculcate in the students a love for learning and a desire to excel at every level. The Institute also aims at equipping the students with the intellectual and practical skills that are necessary to meet the inevitable challenges in the future. The Institute has a sprawling campus where undergraduate programs in information technology and management are run in affiliation with Guru Gobind Singh Indraprastha University, Delhi and are approved by the Government of NCT of Delhi. The campus provides a pleasant and intellectually stimulating ambiance. It has spacious Air-Conditioned lecture theaters, computer labs with i5 computers, a well stocked library and other essential infrastructural facilities.

About the Conference

The conference on "Redefining Global Growth and Competitiveness: Navigating Technological Disruption, Economic Transformation, Geopolitical Realignment and Sustainability" provides a platform for academicians, researchers, industry professionals, entrepreneurs, policymakers and students to examine how a rapidly changing global environment is reshaping businesses and economies. It focuses on how emerging technologies, particularly Artificial Intelligence and digital innovation, are changing the way organisations operate, make decisions and compete globally.

The conference will also explore the influence of geopolitical developments on international trade, investment and supply chains, with emphasis on sustainable and inclusive growth through entrepreneurship, responsible business practices and effective leadership. By encouraging the exchange of knowledge, research findings and academia-industry-government collaboration, it seeks to develop practical solutions and promote a resilient, competitive, inclusive and sustainable global economy.

Conference Objectives

- To examine the impact of technological disruption on global business models and competitiveness.
- To explore the role of AI and digital technologies in economic transformation
- To analyse geopolitical realignment and its impact on trade, investment and global supply chains.
- To promote interdisciplinary research on sustainable and inclusive economic growth.
- To foster leadership and resilience in response to evolving global economic priorities.
- To strengthen collaboration among academia, industry and policymakers for inclusive and sustainable development.

Publication Opportunity

IRGCC 2027 offers participants the opportunity to have their papers considered for publication in journals of international repute, helping scholars and academicians turn their research into quality publications.

Selected papers presented at the conference will be considered for publication in:

- IITM Journal of Business Studies (Peer-Reviewed Journal, formerly UGC CARE Listed)

Selected papers will also be recommended for publication in Scopus-indexed and other reputed peer-reviewed journals, subject to the editorial review process.

All submissions will undergo a peer-review process, giving researchers the chance to reach a wider academic and professional audience.

Track 1: Technological Innovation, Artificial Intelligence and Global Economic Transformation

- Artificial Intelligence, Generative AI and Digital Business Transformation
- AI Ethics, Digital Innovation and Economic Growth
- Global Supply Chain Resilience and Cross-Border Investment
- FinTech, Digital Innovation and Economic Resilience

Track 2: Geopolitical Dynamics, Global Trade and Economic Resilience

- Geopolitical Realignment and the Changing Global Economic Order
- International Trade, Tariff Policies and Economic Integration
- Global Supply Chain Disruptions and Resilience
- Foreign Direct Investment and International Financial Markets
