## FROM THE CHAIRMAN'S OFFICE....

At Institute of Innovation in Technology and Management we believe in learning beyond the limits of syllabi. Year on year we are relentlessly making an effort to nurture the young minds with knowledge that is academically stimulating and practically relevant. In doing so we have conducted guest lectures, workshops, certification programs, etc. Making the student employable has been our vision in the last few years. These efforts have been vindicated by the year on year increase in student placements. It is a proud moment for IITM family at having its students employed in some of the best companies like Deloitte, Wipro, TCS, Amazon, RBS,BT India, Infosys, Genpact etc. to name a few. I wish students, faculty and staff all the very best in continuing the success story.

## FROM THE DIRECTOR GENERAL'S DESK...

This year has been quite eventful as we welcomed a new batch of dynamic young minds on one hand and on the other we have started preparing ourselves to part with our final year students who are ready to join the corporate world. Like every Institute of repute, Institute of Innovation in Technology and Management also has registered many notable achievements with the passage of every semester through curricular, co-curricular or extra – curricular activities, contributing to all round student development. This, however, has been possible as we believe that it is our collective Institutional responsibility to prepare our students for the challenges of the future. This newsletter is a medium through which the Institute’s achievements are showcased to stakeholders. All this and much more is reflected in this edition of ‘PRATIBIMBA’ where student’s achievements in all areas have been aptly depicted. I shall always be extremely proud of all my students, faculty members and staff who are tirelessly working towards making the Institute a *sanctum* for nurturing excellence.

## FROM THE EDITOR'S DESK

One of the most interesting things about the Institution is the broad diversity of its brain power. At one end of the campus we have the most talented programmers, coding their way to the top. On the other side of the campus we have the sharpest mind learning to manage the business administration. And in between is a vibrant mix of intellectual progress in sports, arts, public speaking, social activities, etc. We, as faculty members are proud to be leading in a batch of students that are extremely talented. Certainly, it is our students who contribute in building “brand IITM”. A large number of students got placed in top notch companies such as TCS, Deloitte, Genpact, IBM, Infosys, Aon Hewitt, Amazon, HCL, and many other amazing companies, while several others have enrolled themselves to pursue their post graduate dreams at premier institutions of higher learning in India and abroad. Last semester saw some key contributions from both faculty and students in various events which further brought out some of the best student potentials in an all-round manner, again giving thrust to our motto, ‘Nurturing Excellence’. A development worth reckoning! True to this spirit, we are glad to release this issue of IINTM’s newsletter ‘Pratibimba’ which truly is a reflection of our continuous developmental activities. The editorial team remains grateful to the faculty members, staff and students for providing materials and photographs for the newsletter. While we have made sincere effort, any error is deeply regretted. We look forward to your comments and suggestions.

**Best Wishes- Ms. Harsh Arora**
